Measure, Appointment or Topic:

SB210

I fully support the passage of this bill. Oregon needs to be in compliance with Federal rules, policies, Executive Orders. I feel this will greatly improve our election system, eliminate ballot harvesting and potential for fraud (influencing another's vote, not turning in ballots, etc), and get us to a timely result of the vote - same day! Having voted here since the late 70's we used to vote at local churches and community centers. There were volunteers checking ID and signatures, handing out ballots only to the registered voters. We would go into a voting booth with curtains for privacy, fill out our ballots, put in an envelope for security, and deposit our ballot ourselves into the locked ballot box. Very efficient process. None of the current dragging the vote out for weeks which gives more opportunity for fraud, adding fake ballots to the mix. We witness the attempt this last election with trucks showing up after midnight loaded with fraudulent ballots. The cut-off is 8 PM!
