Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has always been a trail blazer for bills that impact the public in a positive way, such as the bottle bill and of course vote by mail. I voted for mail on voting when first introduced 20+ years ago and I still fully support it. This new bill is unnecessary, will be costly, and be an inconvenience to many voters. This is a blatant attempt from the far right to disenfranchise voters. With all of the current issues in the world, voting in person is what we are wasting time pursuing? Oregonians already made it clear we like mail in voting. Please oppose this bill.
