I have been successfully voting by mail for 30 years!!!! I don't travel anywhere these days, and don't need to stand in a school or community area for hours to cast my vote. I also really enjoy doing it by mail and until my husband died, we talked about it as we were filling out our ballots. He was a republican and felt safe mailing in his ballot as well! Our mail is safe, so far unless they (Trump and Musk) privatize it. We don't need or want these changes, and I am opposed to this bill!!!! Leave Oregon alone! Kim Thatcher can go back to Idaho, where she was born, and work for them if she doesn't like the way that Oregon runs. David Brock Smith, who thought the mob that stormed the Capitol was justified and refused to accept that Trump lost is just causing trouble. This is a democratic state!!!! We need to stand for our rights to vote!
