Removing mail in voting will severely limit voter turnout and silence millions of voters who are not able to take the time off to vote. Mail in voting also produces a more informed voter base as voters can utilize the voter's pamphlet as they vote. Moreover mail in voting provides a paper trail so that votes cast can be verified via a hand count. Statistics show that voter fraud is extremely limited and is usually perpetuated by election workers, not voters. Oregon is not set up for in person voting and there will be crowding, confusion, and voters turned away at the polls. Let Oregon voters keep their voice.
