Measure, Appointment or Topic:

SB210

Billionaires, massive, corporations, and biased, political agenda are all in concert right now to make it as difficult as possible for Americans to vote in elections. The intention to only allow in person, election day voting, is to keep rural Americans, and people of color from voting. When voting takes hours and hours, and people have to stand in line, sometimes in foul weather, and sometimes in districts where it's illegal to save places in line or to even give somebody a bottle of water or something to drink when they've been in the line for hours, this discourages people from voting. And these people and entities that want to enforce this ridiculousness, aren't doing it because of voter fraud. They're doing it to control the outcome of elections in favor of their own personal agendas. We are supposed to be a government of the people by the people and for the people. But we're heading towards oligarchy, with all that it entails. They want child labor, no labor organizations, no employee protections, and no job safety or security. Most Americans are against this type of voter suppression. The ones that aren't, are woefully and willfully, ignorant of how negatively voter suppression will impact their lives. These billionaires, massive corporations and political opportunists with their own personal agenda. Simply don't want the will of the majority of Americans to dictate the way they run their enterprises. That's why they want to oppress our votes. And that's why all of us must stand up, be loud, be heard, and be engaged in ensuring that democracy will always be the cornerstone of our existence. We the people are in charge. The politicians, work for us. The corporations exist because of us. It's time that we let them know that we will not allow our voting rights to be oppressed so that they can take advantage of a labor pool that has no voice.
