Measure, Appointment or Topic:

SB210

Hello,

I hope all is well with the person reading this.

I am a resident of Salem, born and raised in the area. I've always held a lot of pride in how Oregon conducts elections, since my first time voting to the most-recent elections. I believe our Mail voting option should be left alone as it better provides accessibility to ALL Oregonians and has proven to be incredibly safe and secure. I strongly OPPOSE any attempts at eliminating our current voting methods. I also believe a major reason this is even a discussion is because of partisan cronyism. The current administration sees a potential opportunity to disenfranchise Oregon voters and they are attempting to meddle in a way that benefits only them and no one else. They should keep their hands off of Oregon election protocol. Thank you for taking the time to read my testimony.
