SB210

To Whom it May Concern,

How is this 2025? How is this happening? Why is this Oregon law being changed for no reason, other than the trump administration pushing for it? Oh yeah, it's to deny poor people, people of color, and elderly people being able to vote. That's why. This voting standard in Oregon has been in place and working just fine for around 30 years. Whomever put this on the chopping block, per trump and musk's circus show in DC, should be fired. What a disgrace this bill and country are. You do NOT have my support. I am not okay with anything going on right now in this country.
