

Submitter: Alice Young

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I want to STRONGLY state that I OPPOSE the introduction and any ratification of SB 210 which would end our vote-by-mail in Oregon. I also oppose the ID requirement proposed in this bill. Vote-by-mail has been a very safe, secure and welcome way for our voters to express themselves. Requiring voting in person is turning the clock around and will be a great detriment to our society. It would impose undue hardship on individuals who have difficulty physically locating and showing up to vote at an in-person precinct. The more Oregonians who vote, the better and going back in time to voting in person is not the way to go. Also, many people, especially older voters do not have the ability to locate or access the ID that is being proposed in this bill. Leave our voting system here in Oregon the way it is now!

Thank you
Alice Young
Linn County Voter
