Senate Committee On Rules

Measure, Appointment or Topic:

SB210

What a disgusting attempt by David Brock Smith to promote a fascist agenda. Removing vote-by-mail is regressive at best, and at the very least creates a less accessible election process - not a surprise coming from a MAGA cultist.

Hey, David: put your money where your mouth is - WHEN this bill fails, you should walk away, never to be seen or heard from again. You don't represent the people, and never will.
