Senate Bill Measure 210:

Do NOT make it harder for Oregonians to vote! Vote by mail has increased voter participation and convenience in our great state! Our goal as Americans if we believe in real democracy is that people should be able to vote easily, and comfortably. We need to hear from as many people as possible with as many ideas as possible so that we can craft the best government for our state and nation. This is what voting does for us! Measure 210 is unnecessary and cumbersome and a clear attempt to un-democratize our excellent state system of voting.
