

Submitter: Leia Allmon

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Voting by mail is one of the great equalizers in our state. Those of us with invisible disabilities, single parents, farmers, farm workers, wildland firefighters, the working poor, people of the global majority and people with neurodivergent brains would all experience undue difficulties being forced to vote in person.

This bill is discriminatory and honestly disgusting in its blatant disregard for equity. Do NOT pass it.
