Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Repealing vote by mail based on unfounded claims of fraud is testament to grandstanding for the Trump administration, rather than working to the benefit of Oregon voters. Vote by mail encourages thoughtful consideration of issues on a flexible timeline that enables the public to engage fully in the electoral process. Requiring in-person voting on election day is a subversive way of making it harder to vote under the guise of election security.
