Vote by mail in Oregon has been safe, secure, and makes it easy for the working population to vote without taking time off to vote. We all know employers don't allow their employees time to go vote in person. We should be creating more opportunities to vote, not finding ways that would negatively impact access to Oregonians' access to voting. I have used it all my life. It is my testimony that my involvement in elections has been enjoyable in that I have time at home to study positions and bills before voting. That is making it easy to make informed choices. Find something that actually needs improvement in Oregon.
