Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is a total waste of taxpayer money. This bill is destined to fail, for starters. If it did pass, it would cost the state millions of dollars to design and implement a new system to replace the one that's been successfully working for a generation. Why would we want to spend more money for a worse system? We consistently have one of the highest turnout rates in the country and we should keep it that way.
