I am writing to oppose the repealing of mail-in voting. I have been able to vote by mail for every election I have participated in, and it has been beneficial for me as well as countless others in my community who are not able to show up in person, but deserve a say in the measures and politicians that affect them. I am proud to live in a state where this option is available. We cannot let fears about security overshadow our freedoms. There are plenty of safeguards in place to stop voter fraud, and they work. Was the representative who put forward this bill to repeal not himself elected by mail-in voting? If he's so worried about the security of our elections, he should resign to make a statement. Thank you.
