Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail keeps voting accessible for many voters. Voting by mail allows those who are otherwise unable to commute to an in-person location due to circumstances, such as work responsibilities, lack of childcare, disability, etc., to participate in elections. Switching to an in-person voting standard would take away many individual's access to exercising their right to vote. We must keep voting by mail a standard for conducting elections in Oregon.
