Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I vehemently oppose SB 210. Vote by Mail is safe, reliable, and enables everyone in the state to vote easily. It allows voters to take time to research the ballot and be informed voters. It has excellent safeguards. This effort to limit voting to in-person only represents a huge step backwards and would present a huge burden for including, but not limited to, those who are rural and disabled voters. Shifting to in-person only voting is a waste of administrative time and money and a distraction from substantive democracy.
