Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This absurd measure is a blatant attack on our sovereign, democratic processes, and anyone who has been involved in the creation or advocacy should be embarrassed to show their face in public. Vote by mail is a proven, effective method of conducting our elections that has made it easier to participate in the process and make fully informed decisions. Attempts to disenfranchise citizens and limit the accessibility of elections should be opposed by anyone who believes in America.
