

Submitter: Elaine Hamm

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose any measure to make voting more difficult for any citizen. Oregon has been blessed with an easy-to-participate voting procedure, accessible to any citizen with an address. If any change is appropriate, it should be made easier for people with housing difficulties, language interpretation, or disabilities, not more difficult. So far as I am aware, there is essentially no or negligible fraud discernible in the present vote-by-mail system. Shame on any member who supports more barriers to our voting rights/responsibilities.
