SB210

I was born and raised here in Oregon. We have a solid voting system in place. There is no need for additional ID requirements, that could potentially disallow people of their voting rights. Mail-in ballots are essential. My son is disabled. He and I spend several hours researching the issues and candidates. It's very time-consuming and important work. All people should be afforded the time to be fully informed and be able to fill out a ballot in the privacy of their own home in their own time. This is especially important since ranked choice voting is also on the ballot.
