Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this move to make voting less accessible to the Oregon electorate. Vote by mail has proven to be an invitation to Oregonians to participate in elections on issues and candidates. "Oregon currently has the highest rates of voter turnout in the entire country." OPB January , 2023. Although there were some issues with registering non-residents through the DMV, the problem has been identified and a solution implemented. This SB 210 is anti-democratic as it will put undue burden on those who are infirm, without reliable transportation or are employed in a job that doesn't allow for time off to vote. Please do not end accessibility to vote for so many people!
