On Behalf Of:	Oregon residents and US Citizens
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

SB210 is absolutely necessary for our state. It would eliminate most election fraud. Honestly, it's disturbing that our appointed officials in Oregon don't support this bill. If you're a person who doesn't support SB 210, we know why. We as citizens are required to have proof of identity for almost all facets of life, voting being one of the most important, should be no different. It is literally a common sense bill, if you question it, I question your credibility & integrity.
