SB210

I was born in Oregon, I have voted in every election possible since I turned 18. I wouldn't be able to do this without mail-in voting - I work full time, I help my family and friends when they need it, and I try to find time to enjoy life. As of now, I barely have time to take care of myself. If I had to show up and wait in line to vote, I probably wouldn't be able to vote in most elections.

Trying to roll us back to the old system, where people have to show up and wait in line, and if they don't have all their documents on them they won't be able to vote, this is a system that excludes the majority of eligible voters. I believe this measure has one purpose: disenfranchising voters, ensuring that elected representatives can make changes without accountability, without consideration for their constituents. I think this is reflective of the wave of fascism that has taken hold of the U.S. government.
