Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I'm old enough to have done in person voting and to have opposed the move toward all mail voting when proposed in Oregon. I was wrong to oppose it then. Having lived for years now with mail-in voting being voting, we should NOT go back.

Authoritarians fear democracy. Do NOT be intimidated by the Trump Administration. Oregon has an enviable rate of voter participation. As an older person, I see the day coming when it would be hard for me to get to a polling place on Election Day. Don't disenfranchise Oregonians, including future me. Protect our safe, secure, cost-effective and convenient form of voting. It isn't broken; don't break it.
