Committee:

House Committee On Education

Measure, Appointment or Topic:

HB2583

Many students can not do their schooling in a traditional setting so virtual schools give them a chance to still participate and ensure education with multiple options of enrichments such as Summit Learning Charter. Summit Learning Charter does offer in person and virtual classes as well as field trips to support their students education and learning. The school should be able to have access to these funds as it is still a public school. Virtual charter students deserve fair access to the same resources as every other public school student. The Student Success Act was meant to support students who need it most, yet virtual charter students are excluded. HB 2583 is about fairness — ensuring all students have equal access to SIA funds, no matter where they learn.
