Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon is a leader in safe and effective voting. Vote by mail should be the standard everywhere. There is no evidence of mass fraud or anything else that would warrant moving backwards like this. This proposal harms everybody and needs to be opposed. Do not repeal vote by mail. Do not go back to voting in person. Eliminating vote by mail would mean only the jobless could easily go to the polls. Those of us that work for a living would prefer keeping the current system.
