Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I am a nurse working in a hospital setting, critical care . My schedule varies and the ability to leave work to vote is not possible. Often we stay late to ensure continued care of critically ill patients.

This feels as if you are trying to take away my right to vote. Statistically the number of votes that are fraudulent is extremely low and is of no consequence in Oregon as well as other mail in vote states. Why try to change this when it has been so successful for decades in allowing the working class to vote?

But It is not just the people who work. What of my elderly mother who cannot drive with limited resources? What about the people who have disabilities?
