This would end up being the end to our beautiful freedom left in this State. You have over reached far enough. It is time for the insanity to stop. We the people do not live in a 3rd world country with no say so. This will cause the people to revolt totally, and with good reason. Our state is going to end up completely upside down and bankrupt due to your crazy ideas. Taking all our rights is too much. Please stop the madness. We do not want no say so.
