Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a hospital worker, having mail in voting is important so all eligible voters can make their voices heard, especially because we cannot all take time off on one day. Taking away mail in voting will make it harder for those without seniority or available time off to participate in something that should be their right as a citizen. Please don't punish people who have to work and cannot take time off due to financial or personal reasons.
