Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting in person on the day of an election objectively hinders people's ability to vote due to a multitude of unavoidable conflicts (health, work, family, etc.). Additionally, requiring folks to pay their own postage for mail-in ballots adds another monetary layer to people's ability to vote. I oppose SB 210 as voting should be accessible to all and these changes would inherently lower accessibility.
