SB210

I have been an Oregon resident since 1984 and much prefer and the mail in voting system that we have had for the past 27 years. Going back to vote the day of in person would be a huge set back and significantly more complicated, causing more confusion and congestion the day of and likely with less turnout as a result. The mail in vote system is far superior and has passed the test of time in Oregon, setting the gold standard! Please DO NOT consider passing SB 210.

Respectfully submitted,
