Vote by mail works great in our state... don't crumble to Federal pressure to limit or ban it!

These people want to chip away at democracy... they don't believe this country is for everyone!

Their goal is to take civilization back to the dark ages where they can be the feudal lords and the rest of us will be their property... serfs to do their bidding!.... Every step they take to roll back our hard earned rights takes them closer to this goal!

This is de-evolution! We won't tolerate this BS...
