Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote by mail is the most equitable way to conduct voting. In person requirements would primarily impact low income voters who often have more restrictive work schedules, challenges in accessing transportation, etc. These community members are just as deserving as anyone else to be able to cast their vote. Oregon has done a good thing in removing barriers to people being able to vote by using mail in voting. It is a safe way of voting and the most equitable way for all Oregonians to be able to share their vote.
