

Submitter: Brandon Westerman
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

Only fascists try to make it harder for Americans to vote.

We are a democracy. Do not make barriers that prevent us, We, the people, from using our voices and being heard.

Government is for the people. The Republican attempt to destabilize and control the electorate will end in massive harm and disenfranchisement of the people.

This nation does not exist to pamper the wealthy and silence the masses. Attempts to reduce democracy and establish control are a betrayal of the people, are a betrayal of the spirit of the nation, and are a betrayal of our social contracts and our constitution.

A government that serves the few over the many is a traitorous farce. A government that does not serve the people must, and will be, removed, by any means possible.

Do not be the cowards who destroy democracy while selling fear. It will not make you kings, and it will not save you from the masses that you betray with these machinations.

We can see how each of these steps is designed to further control, reduce engagement of the people, and establish the rule of oligarchs, all under the masks of lies told to incite fear, hate, and xenophobia.

America will have no kings.

Do not make barriers for the people to use their voices.

The people are watching.
