Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote by mail is one of the most critical, useful tools we have for ensuring that anyone and everyone can vote, so long as they are a citizen, and can do so with due time to research their ballots and not have to take time off from work. Repealing vote by mail would serve no purpose other than make it more difficult for people to vote as well as deprive some of the right altogether.
