Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The Oregon mail in voting process has proven very successful and popular since it was introduced. There have been many years of testing this method and the clerks in the voting offices all agree that it is an efficient and effective way to "get out the vote" We need this convenience of having the time to read and consider the issues and then simply mail the ballot back. There is nothing positive about changing this mail in voting. Please stand together to keep our proven winner. AND, we are for the John R. Lewis Voting Rights Act to strengthen voting rights before congress and lawyers ruin it with prejudicial nonsense! Thank you.
