Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon led the way with automatic voter registration and mail in ballots. This is smart and efficient. It is convenient for Oregon's voters. Don't mess with it.

There are sufficient penalties for voter fraud as a deterrent for cheating. the actual amount of voter fraud is vanishing small. Don't punish the 99.999% of honest voters.

The only reason to pass this bill is to disenfranchise Oregon residents who are eligible to vote. Let's keep it easy and convenient.
