

Submitter:

Karen Daniels

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have been voting for 52 years. I remember the days of going to the polls waiting in lines and seeing the ballot for the first time. Making thoughtful informed decisions was difficult!

I work full time and take care of my mother who is 98 and my husband in his late 70's. We are all so thankful to vote by mail and not make the stressful rush to the voting booth. To change the process would be a regression and not productive for a strong democracy.

I am proud to live in Oregon and have the privilege to vote by mail. To make in-person voting the standard is just another way to keep people from voting. Please leave vote by mail in place for strong vote turn out and a strong democracy.
