

Submitter: Kate Savage

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This is yet another unabashed attempt by the zrepublican party to burn democracy to the ground and install Trump as the unquestioned king of America. This bill is ludicrous—mail-in voting is overwhelmingly popular and proven to be beneficial to a healthy voter turnout. Let's not pretend this is anything other than what is clearly is—one of many cynical, blatant tactics to disenfranchise voters on the part of the president and his lackeys.
