I oppose this bill due to vagueness in the price increases. I am a well dependent citizen land owner and it is already very expensive for start card and final reporting which is done by the well owner. Not being able to have a say in price increases is not a good way to handle it. The fees for licenses for the well driller is prohibitive also. Please consider revising or amending this bill, and also remember there is a declared emergency which makes it effective immediately on passing.
