Measure, Appointment or Topic:

SB210

I am opposed to having to stand in long voting lines when we already have a mail-in system that works. Inclement conditions, having to take time off from work, childcare and other important priorities to stand in long lines makes no sense. This would be several steps backwards. What about the rural voters who would have to travel long distances to vote. My other very great concern is that of the computerized voting machines and their ability to be hacked. I want a paper ballot and I want to continue to vote from my home.
