Measure, Appointment or Topic:

SB210

I vehemently oppose making voting in-person on election day the only way to vote. The system that allows the greatest number of qualified voters to participate in an election is the common sense, efficient and most importantly - democratic way. We know mail-in voting is safe, secure and works. Think how long it takes to complete Oregon's lengthy ballots. I doubt voting could be done in one day. I cast my first vote 66 years ago and I don't intend to stop now. DO NOT PASS THIS BILL.
