

Submitter:

Michael Kristosik

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I've voted in person and by mail since I've been in Oregon (since 1976) and I have to say that mail in voting is my preference. I don't believe the claims of rampant fraud associated with mail in voting. I think that these claims are baseless. Mail in voting is easy, safe and secure. I like that I can have source documents (voter's pamphlet for example) with me as I go through the ballot and vote on the various candidates and measures on the ballot. Most importantly I can do this in the comfort of my home. I strongly oppose SB 210 and urge that it be tabled, shredded or otherwise tossed in the trash.
