Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I urge the committee to please reject SB 219. This bill is a beyond infuriating attempt to remove an election system that has widespread, bipartisan support in this state. Any state legislator caught supporting this bill probably understands it's virtual political suicide in this state, as people of all stripes in Oregon support it. Mail-in voting has been proven incredibly effective in Oregon at being accessible, increasing turnout, being cost-effective, and being highly secure with VIRTUALLY NO RECORD OF FRAUD. Why attempt alternative voting systems that have proven worse by ALL of these measures?

Please reject this silly silly bill.
