SB210

Please do not change the voting regulations we have now. I am a senior citizen and the mail in voting as it has been for many years works perfectly. It would be a burden for me to go in person to vote. Additionally, I live with my sister, another senior citizen and it would be difficult for her as well. There is no legitimate reason to change the voting system in Oregon. It has been working well and I STRONGLY request and urge you to keep things the way they are. Do not give in to the stupid ignorant people. Do NOT pass this bill. Thank you.
