Measure, Appointment or Topic:

SB210

I am strongly opposed to this bill, as voting by mail has been proven to increase voter turnout, and is therefore beneficial to democracy. I see no reason to end such a convenience, aside from claims that it somehow causes fraud, which to my understanding are nothing more than "conspiracy theories" with no credible evidence to support them. While I believe it's unlikely this will pass, the fact that such an unreasonable bill is being proposed at all is frankly quite disappointing.
