I oppose any system in which we cannot vote by mail, as this allows people of all backgrounds and calendars to quickly and easily exercise their rights as an American. Requiring in-person voting naturally ensures that people who cannot take time from work or home duties do not have their voices heard and these are the marginalized voices we NEED to hear the most. Additionally, people who are sick or injured on Election Day will miss their opportunity due to circumstances outside of their control, which suppresses voices even further. We need to hear from everyone, not just the healthy, wealthy, & white. Make voting easy and do NOT go back to in-person only on a single day.
