Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a trauma/acute care surgeon I cannot leave my job in order to vote. This is not a tenable to reasonable process for those of us who are in healthcare and responsible for patient's lives. This bill would make us chose between our constitutional right to vote and our responsibility towards patients. Imagine being injured in a car accident and arriving to a hospital only to have no doctor there to take care of you. I am highly against this moving forward.
