

Submitter: Keith Bentley

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

SB 210 is about integrity and citizens faith in our election process.

We need to secure our elections. The mail in voting system carries too much potential for abuse. A voter should vote in person, present ID and sign. Upon verification the voter receives ONE ballot to cast their vote.

Democracy ends when we ignore, hide and disregard the fraud, abuse and manipulation in our elections. American voter's faith in our election system and the integrity and power of their vote is what keeps democracy alive.
