Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has long been acclaimed for its "universal" mail-in voting. This allows every single REGISTERED voter (anyone saying that mail-in voting promoted voter fraud seems to conveniently forget this fact), regardless of age, race, disability, homestead, or employment status, to perform their civic duty and vote. Removing this is, and has been in other states, such an obvious play towards voter suppression and is, in my eyes, 100% un-American!

Do not kowtow to fascism. Do not suppress the voice of the people.
